

## Partner Verification

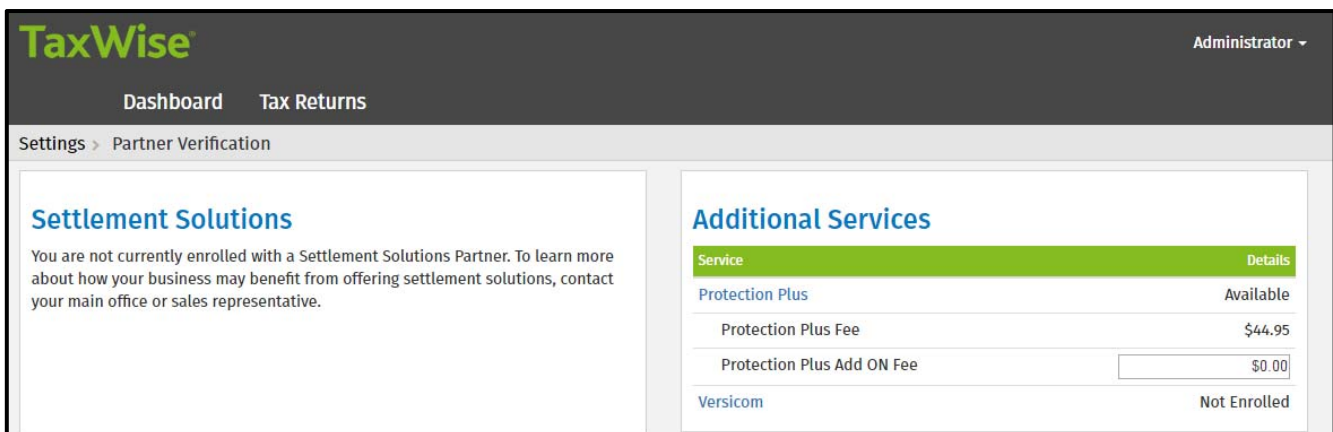

To provide your clients with more services, you can partner with banks and other parties to offer refund settlement solutions, offer audit protection coverage, process credit card payments, and provide timely information regarding a client's return status.

Each partner you work with may have additional fees you need to verify and download in your program. The Partner Verification tool allows you to easily download your fees and access them within TaxWise Online. To download your refund settlement solution fees, and fees for any other services you offer:

1. Log in as admin.
2. From the menu icon, click **Settings**.

3. Click **Partner Verification**.

Service	Details
Protection Plus	Available
Protection Plus Fee	\$44.95
Protection Plus Add ON Fee	<input type="text" value="\$0.00"/>
Versicom	Not Enrolled

TaxWise Online displays your fees from the Electronic Filing Center and populates this information in the Non-Preparer Fee section in each tax return. This prevents users from getting rejects due to mismatched fees.

**i** There is no need to enter these fees on the templates anymore.

If you want to learn more about iTransact, Versicom, or Protection Plus, click the appropriate link on the page, or click [here](#).
